- Scratch resistant galvanized steel exterior
- Extra thick insulation
- Easy to clean aluminum interior with drain
- Patented low-frost system
- Vacuum release for easy opening

## Complete Off-Grid DC Home Kits

### Featuring DCR165

SunDanzer Refrigeration designs and assembles solar refrigerators in the United States. Low energy consumption allows refrigeration in remote locations where it was previously unavailable or too costly. With DC power, no inverter is needed, providing more reliable refrigeration.

This complete solar home system kit provides peace of mind with reliable cold storage and minimal energy consumption for the off-grid home.
